

Ecography

ECOG-00057

Heino, J. and Grönroos, M. 2013. Does environmental heterogeneity affect species co-occurrence in ecological guilds across stream macroinvertebrate metacommunities? – *Ecography* 36: xxx–xxx.

Supplementary material

Appendix 1

Heino, J. and Grönroos, M. Does environmental heterogeneity affect species co-occurrence in ecological guilds across stream macroinvertebrate metacommunities?

Fig. A1. The locations of the 10 riffle sites in each of the 10 streams. All the streams drain into the River Oulankajoki located in the middle of the map.

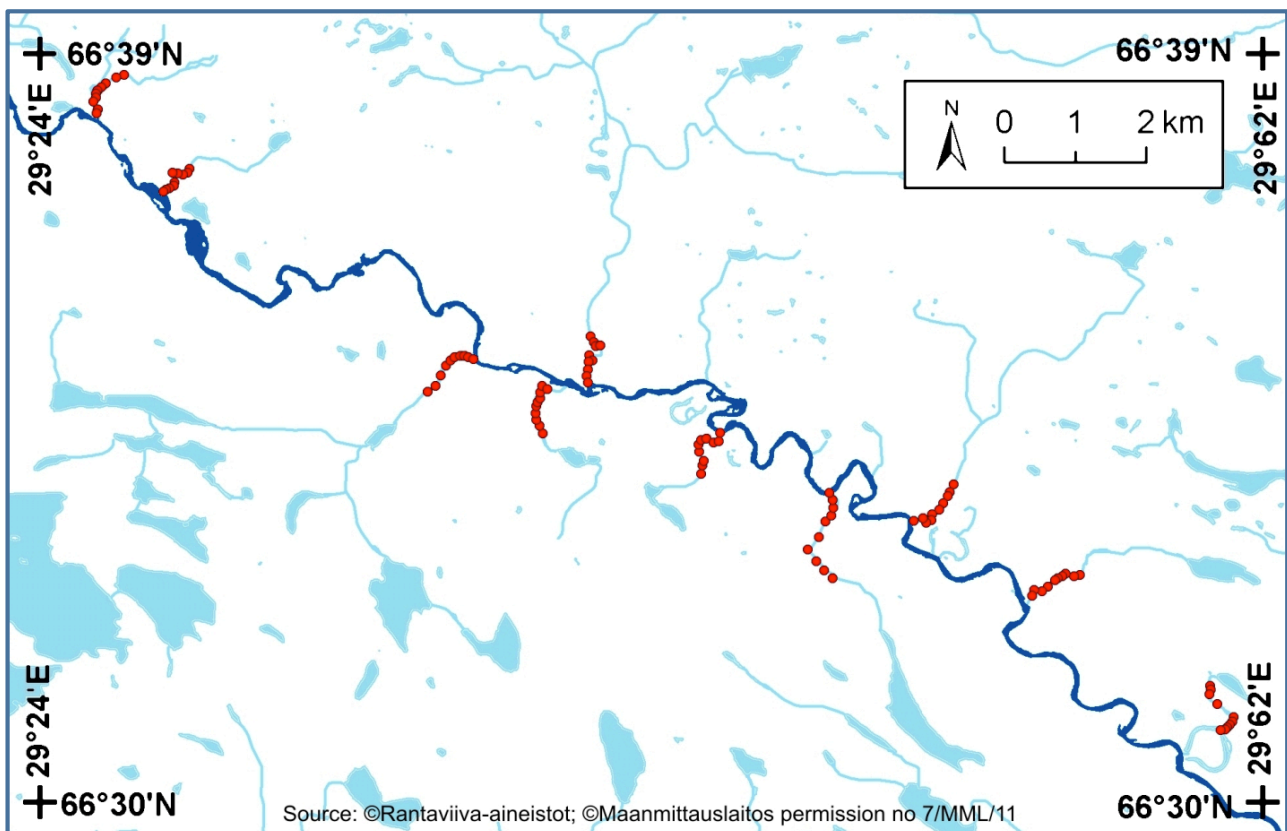

Fig. A2. Scatter of sites in the PCoA ordination plot based on Euclidean distance on standardised environmental variables.
