

Ecography

**ECOG-02942**

Guralnick, R., Walls, R. and Jetz, W. 2017. Humboldt Core – toward a standardized capture of biological inventories for biodiversity monitoring, modeling and assessment. – Ecography doi: 10.1111/ecog.02942

**Supplementary material**

**Appendix 1.** Table of participants at the Species Inventory Workshop, Yale University, June 20-23rd 2013.

**Appendix 2.** Table of example metadata collated from 7 exemplar inventories using a Humboldt Core application profile. Not all terms from the full list were included and sparseness in reporting reflects what was available from resources consulted.

**Appendix 3.** Table of the full term list of Humboldt Core Version 1.

**Appendix 4.** Table of summarized results from examination of 402 published summary inventories.

**Appendix 5.** Example output from Map of Life API reporting Humboldt Core formatted inventory metadata.
