

Ecography

ECOG-03260

López-Aguirre, C., Hand, S. J. , Laffan, S. W. and Archer, M. 2018. Phylogenetic diversity, types of endemism and the evolutionary history of New World bats. – Ecography doi: 10.1111/ecog.03260

Supplementary material

Figure A3. Comparison of the geographical distribution of statistically significant centres of endemism of phyllostomid bats based on analysis performed using Fritz et al.'s (2009) and Agnarsson et al.'s (2011) phylogenies.

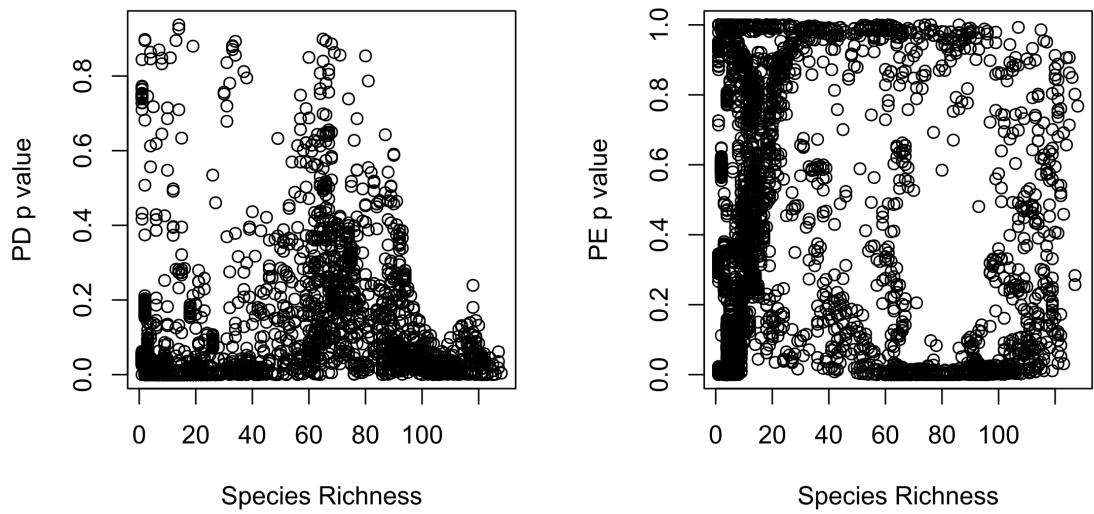

Figure A4. Scatterplot of significance values of PD and PE (obtained from the randomization analysis) and species richness.
